DETAILED ACTION

Response to Arguments

The applicant's amendment received 1-24-2005 overcomes the examiner's prior art rejection. Hence claims 3-16 are allowed.

Allowable Subject Matter

The following is an examiner's statement of reasons for allowance:

The applicant has amended per the primary examiner's recommendation.
 Therefore, it is his opinion that the claims are novel since the prior art does not disclose:

Claim 3: A method for use in at least a portion of a wireless communication system in which downlink signals are communicated-from- at least one of one or more base stations to respective ones of a plurality of terminals, and unlink signals are communicated to at least one of one or more base stations from respective ones of a plurality of terminals, the method comprising the steps of:

using dirty paper coding to compensate for interference among the downlink signals,
using multi-user detection to compensate for interference among the uplink signals,
wherein the compensation for the downlink signals is performed using a first order of the
terminals that defines which terminals' downlink signals are used to compensate for interference
in which other terminals' downlink signals, and

the compensation for the uplink signals is performed using a second order of the terminals that defines which terminals' uplink signals are used to compensate for interference in which other terminals' uplink signals.

than the payment of the issue fee and, to avoid processing delays, should preferably

Any comments considered necessary by applicant must be submitted no later

accompany the issue fee. Such submissions should be clearly labeled "Comments on

Statement of Reasons for Allowance."

Conclusion

Any inquiry concerning this communication or earlier communications from the

examiner should be directed to Stephen M. D'Agosta whose telephone number is 571-

272-7862. The examiner can normally be reached on M-F, 8am to 5pm.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's

supervisor, Bill Trost can be reached on 571-272-7872. The fax phone number for the

organization where this application or proceeding is assigned is 703-872-9306.

Information regarding the status of an application may be obtained from the

Patent Application Information Retrieval (PAIR) system. Status information for

published applications may be obtained from either Private PAIR or Public PAIR.

Status information for unpublished applications is available through Private PAIR only.

For more information about the PAIR system, see http://pair-direct.uspto.gov. Should

you have questions on access to the Private PAIR system, contact the Electronic

Business Center (EBC) at 866-217-9197 (toll-free).
